COMMENT JOB

Is your CV ready for a job abroad? 10-point checklist

Recruiters abroad reject Indian-style CVs in seconds. Fix these before you apply anywhere.

The checklist

1. **Right format for the country.** UK/Ireland: no photo, 2 pages. Germany/EU: Europass-style is common and a photo is often expected. Canada/USA: 1 to 2 pages, no photo, no date of birth. Gulf: photo and nationality are common.
2. **No personal details they don't need:** father's name, religion, marital status, full address.
3. **A 3-line profile at the top:** role, years of experience, your strongest skill.
4. **Results with numbers** in every job ("cut costs 18%", "managed 6 people"), not just duties.
5. **Keywords from the job ad** in your CV, so applicant-tracking software finds you.
6. **Language level** written in the international scale (e.g. German B1, IELTS 7.0).
7. **Degree explained** for foreign readers (e.g. "B.Tech, 4-year engineering degree").
8. **Visa status line** if useful: "Eligible for Skilled Worker visa / open to relocation".
9. **One clean font, simple layout, saved as PDF** with your name in the file name.
10. **LinkedIn matches your CV**: same titles and dates.

Where to apply after

Use the free official government portals: EURES (EU), Job Bank (Canada), Find a job (UK), Workforce Australia, Jobsuche (Germany).

The tool from the reel: let it check all 10 for you

Upload or build your CV. You get a full report: which country suits your qualifications and skills best, the exact requirements, skills to add, and links to that country's official job portals.
